

OUR EB SOLUTIONS MEET ALL YOUR CHALLENGES

TECHMETA PURPOSE

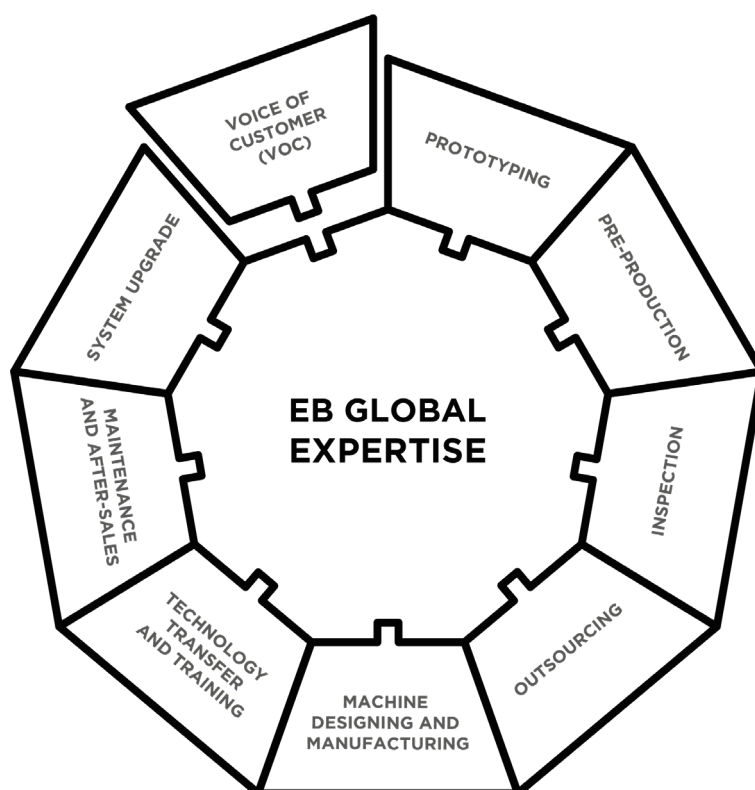

TECHMETA has always supported its customers in all their projects, even the hardest, always leading them to success.

Our success is partly due to our bold vision. We firmly believe that innovation is the key of all success. We push the limits of technologies, explore new ideas and create breakthrough solutions to meet the changing needs of our customers.

We strive to stay at the forefront of the industry, investing in innovative ways of working, evolving our technology and business approaches, embracing the latest technological advancements and constantly improving our processes.

This continuous transformation allows us to offer exceptional products and services, exceeding our customer's expectations for each of their projects. We place the satisfaction of our customers at the heart of our concerns, we aim to establish solid and lasting relationships with them.

We are taking care of their needs in order to offer them tailor-made solutions.
Together, we will build a solid partnership, based on trust and performance.

TECHMETA

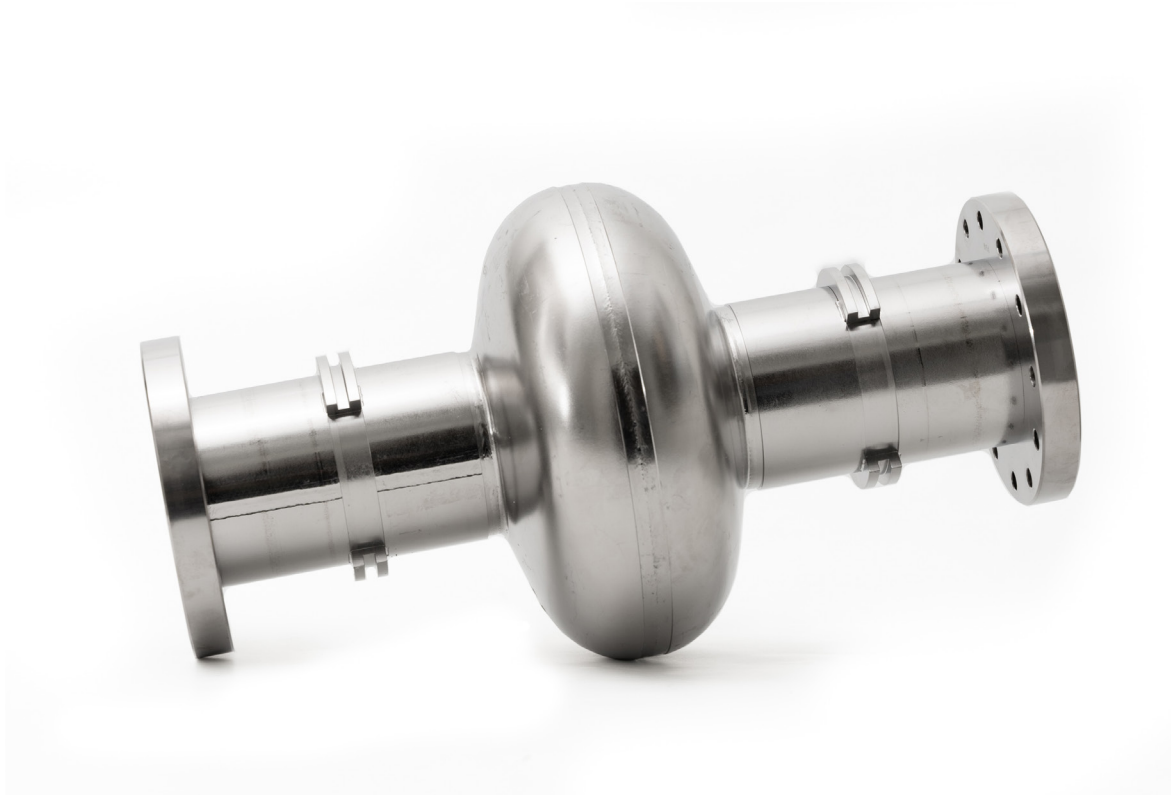

ELECTRON BEAM EXPERT

**PUSHING PRECISION AND PERSONALIZATION TO THE EXTREME,
ACHIEVING THE UNTHINKABLE FOR ALL OUR CUSTOMERS TOGETHER
WITH ALL OF OUR PASSIONATE AND COMMITTED TEAMS.**

A major actor in the world of electron beam technology, TECHMETA is the only machine manufacturer to have mastered indirect heating technology (i.e. the longest welding time with the same cathode and filament) for 60 years. Our world-renowned electron gun (60kV) can meet all challenges. Our unique know-how and commitment to excellence allow us to provide high-precision welding solutions, tailored to the specific needs of each customer.

A family business since its founding, we have never stopped evolving, expanding and pushing the boundaries of technology. We are proud of our track record and our ability to innovate. Thanks to their flexibility and their responsiveness, our dedicated and passionate teams and partners, can help you all along the product's life cycle, by developing the welding process and the welding machine, then ensuring technology transfer and training of your team.

As part of our ongoing development, we have expanded our production area through the acquisition of a new site. This expansion allows us to better meet the growing demand of our customers and to support all our future innovation projects and develop excellent solutions.

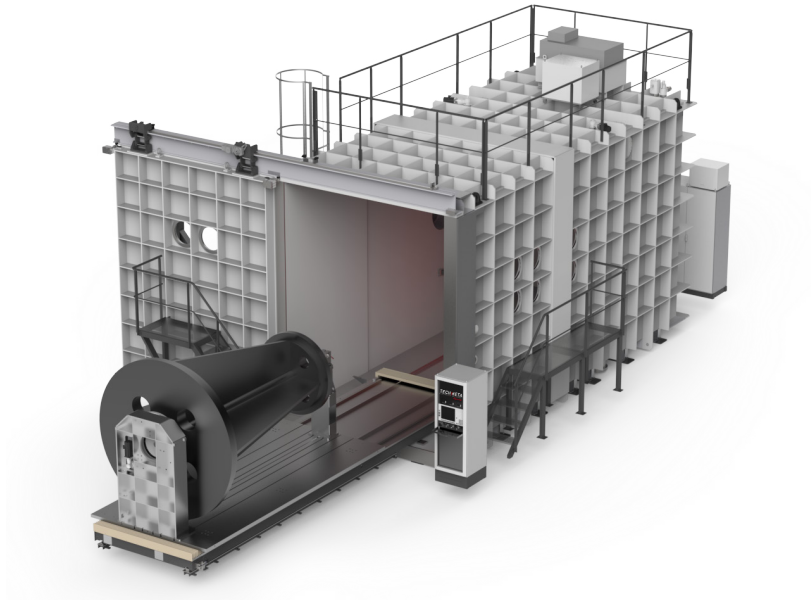

TECHMETA

ELECTRON BEAM EXPERT

Engineering

For 60 years, Techmeta Engineering has been designing and manufacturing electron beam welding machines. Our experts master all aspects of the welding process, offering tailor-made solutions, optimizing parameters and providing training, curative and corrective maintenances as well as expert technical support via our hotline. We also offer retrofit services to upgrade your equipment.

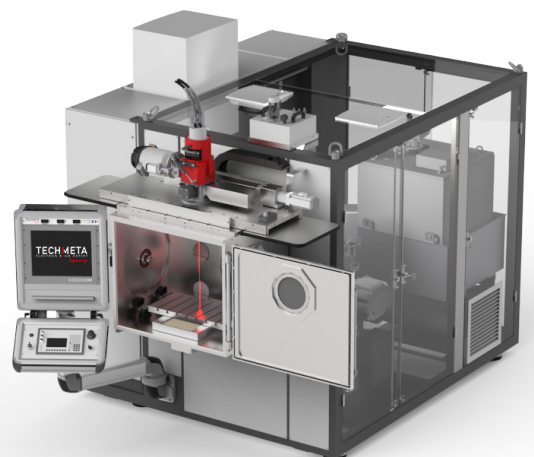

TECHMETA

ELECTRON BEAM EXPERT

India

With Techmeta India, the group is strengthening its presence in the Indian market to serve the growing aeronautics, nuclear and space sectors as closely as possible. We offer "Make in India" manufacturing solutions and are the only ones to offer direct technical support, provided by our local teams.

TECHMETA

ELECTRON BEAM EXPERT

Strips

BUILDING ON ITS EXPERTISE IN PROCESS DEVELOPMENT, TECHMETA IS STRENGTHENING ITS ACTIVITIES ON THE MARKET WITH THE CREATION OF TWO SERVICE DELIVERY WORKSHOPS.

A continuous production workshop for electron beam welding of copper coils, essential for the production of shunts. We offer thanks to our state-of-the-art machine park, operating in 3x8 shifts, with a High-Tech approach integrating the very latest technological innovations, we offer exceptional flexibility and adaptability to meet the highest requirements of our customers.

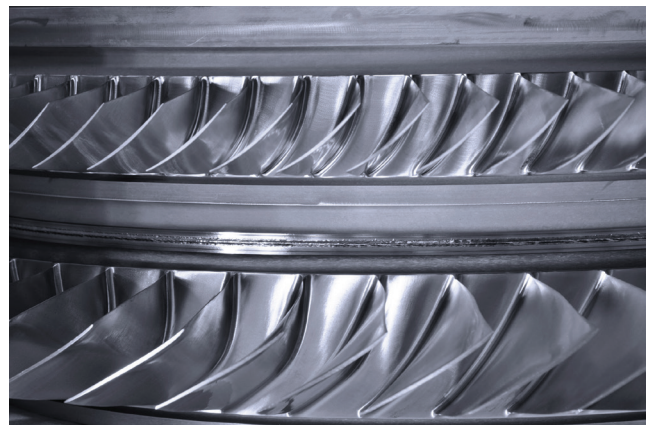

TECHMETA

ELECTRON BEAM EXPERT

Welding

The largest service workshop specially designed for part-to-part welding for the European market in the aeronautics, aerospace, automotive, nuclear and defense sectors. Thanks to our expertise and state-of-the-art facilities, we continue to offer precise and tailor-made welding solutions. Our dedicated laboratory enables us to ensure the quality of our welds using non-destructive testing processes such as XRay, US testing, penetrant testing and dimensional control.
